

## Trainee Marine/Watercourse Construction Operative

Position	We currently have vacancies for two trainee Construction Operatives to join our small but growing team employed in the installation of temporary dams and repairs to culverts and bridges throughout the UK.
Role Type	Full Time
About Us	Robert Nicholas is a specialist civil engineering company delivering marine and structures projects.
About the role	The work will regularly involve installation of our unique temporary dam system in watercourses, rivers, tidal waters and static waters including lakes and reservoirs. Training will be provided, but applicants should be prepared to work in challenging physical conditions.
Required skills	<ul style="list-style-type: none"> <li>• All applicants will be expected to undertake the CITB Health and Safety Test and must achieve a pass to qualify for a CSCS card. This will be supported by the company but failure to complete the course will result in termination of the position.</li> <li>• Applicants should be willing to learn, punctual, good at communicating and able to swim!</li> </ul>
Location	The company is based between Alton and Farnham but operates nationally. This means considerable time can be spent travelling and the candidate may be required to stay local to the works. All travel, accommodation and subsistence costs will be met by the company.
Character	Applicants must be punctual, good at communicating. If you enjoy a challenge and are happy to get your feet wet this could be the perfect role for you.
Job Type	Full
Salary	£22,000.00-£24,000.00 per year

If you are interested in applying for the role, please send an email to [careers@robertnicholas.com](mailto:careers@robertnicholas.com) telling us, in no more than 20 words, why you are applying and include your CV. Thank you for your interest.
